device, provided you set your own password

Fingerprint authentication   Full encryption   Multi-factor authentication

Model Answer

Put (√) or (×):-

1– All HTML commands have a start tag and an end tag   (×)

2– The basic elements of creating a web page are titles and paragraphs only   (×)

3– < img src > command is used to add images to the web page   (√)

4– <P> tag is used to write in italic.   (×)

5– The <i> tag is used to write in bold.   (×)

6– HTML is a standard programming language used to create dynamic web pages.   (×)

7– HTML elements divide web pages to make them easier to read, and browse.   (√)

8– In HTML language, tags consist of four main parts.   (×)

9– There are several disadvantages of electronic games like security dangers   (√)

10– Gaining weight is one of electronic games dargers   (√)

11– There are no dangers while playing electronic games   (×)

12– Never accept limits that your parents set to prevent unhealthy gaming habits   (×)

13– Electronic games that friends play over the Internet are always very entertaining and there is no harm in them.   (×)

14– It is preferable that you only play and chat with people you know and trust, and do not publish your personal information.   (√)

15– It is recommended that you do not use the webcam unless your settings are private.   (√)

16– Passwords should preferably consist of 8 letters and numbers and one or more random symbols.   (√)

17– One way to effectively protect your devices from theft is through multi-factor authentication.   (×)

18– You should report data theft if you suspect your data has been compromised.   (√)

19 – Facial recognition scrambles your information so you can Just access it on your device.   (×)

20 – Fingerprint authentication is a program that scans your face using Your camera.   (×)

b) Choose the correct answer from the following :-

1.. A standard programming language used to create static web pages..........................
   HTML   JavaScript   Python

2. Hypertext markup language code helps people with..........................disabilities distinguish between parts of a page Web.
   Hearing   **Sight**   talk

3. "The .... tag is used to display the alternative text"
   <i> _ _   <p>   **alt**

4. To make it easier to access the image, add a tag.................................
   Image and alternative text   just one photo   Alt text only

5. It is preferable to put the largest address in.......................Part of the page draws Attention.
   higher   lowest   left

6. Adding .... works to attract attention, It can arouse different feelings.
   lines   Colors   **the pictures**

7. HTML ،markup language..........................are easy ,to use Subtext checking Accurately until he can Reader to find The information he wants.
   lines   Codes   **Subtitles**

8. In HTML, tags consist of .... main parts
   five   **three**   four

9. HTML commands are called ....
   Tag   camel   Symbols

10. The tag .... is used to create Paragraph.
   <P>   <b>   <h>

11. The .... tag is used to create a hyperlink
   <font>   **<href> _ _**   <img> _ _

12.. The tag .... is used to write in italics
   <i> _ _   <p>   **<a>**

13. . The tag .... is used to write in bold

        <i>__   **<strong>**   **<P>**

14. The basic elements of creating a web page are headings, paragraphs and.....................

        Links   the pictures   **both of them**

15. There are three tags in markup language : Main parts opening tag and closing tag And the.........................

       content   Numbers   The letters

16. ، To see the alternative text for a web page Right-click on one of the images, select ...., and then look for the"alt" tag.

      search   **inspect**   alt

17. Electronic games, can be a lot of fun, but there can be problems playing these games like...................

      cyber bullying   hacking   **both (a) & (b)**

18. There are several disadvantages of electronic games like....................

     physical dangers   psychological dangers   **all of them**

19. I post pictures of my friends Online without ...Obtaining their permission is

     bullying   Responsible digital behavior   **Irresponsible digital behavior**

20. Playing electronic games too often can affect your....................... cycle

     security   **sleep**   There no one

21. Among the problems that electronic games may cause..............................

     Hidden costs   bullying   **all the above**

22. Passwords consisting of 8 ، letters and numbers One or more random symbols are.............................

     The safest   Least safe   Hacked

23. multi-factor authentication Requires At least to identify you.................

     Three ways   **Two ways**   Only one way

24. One of the ways to effectively protect your devices from theft.....................

     Face recognition   Activate the lock when lost   **all the above**

25. ....will scan your finger,Usually the thumb, as a way to confirm your identity

     Fingerprint authentication   Activate the lock when lost   Face recognition

26. ....It confuses your information so that you can Only access it on your device, provided you set your own password

     Fingerprint authentication   **Full encryption**   Multi-factor authentication

Model Exams

Q1:– Put (√) or (×):–

1– .All markup language commands have a start tag and an end tag ( )

2– The <i> tag is usedto .write in bold ( )

3– Remember to ask an adult for permission before downloading or

clicking on any product links ( )

4– One way to effectively protect your devices from theft is through

multi–factor authentication ( )

5– Fingerprint authentication is a program that scans your face

using Your camera. ( )

Q2:– Choose the correct answer between brackets

1. .... It is preferable to put the largest address in Part of the page draws Attention

     left   lowest   higher

2. ،Adding .... works to attract attention It can arouse different feelings.

     lines   colors   pictures

3. Electronic games, can be a lot of fun, but there can be problems playing these games like...................

     cyber bullying   hacking   both (a) & (b)

4. There are several disadvantages of electronic games like.....................

     physical dangers   psychological dangers   all of them

5. .... Requires multi–factor authentication . At least to identify you

     Three ways   Two ways   Only one way

Q1:– Put (√) or (×):–

1– < img tag is used src > .to add images to the web page   ( )

2– HTML is a standard programming language used to create
.dynamic web pages   ( )

3– Remember to ask an adult for permission before
.downloading or clicking on any product links   ( )

4– One way to effectively protect your devices from theft is
.through multi–factor authentication   ( )

5– You should report data theft if you suspect your data has been
.compromised   ( )

Q2:– Choose the correct answer between brackets

1. HTML ...commands ..are called.....................

    _Tag   statement   Symbols

2. The tag .... is used to createParagraph

    <P>   <b>   <h>

3. ،Sharing personal information can result in ....online or offline
   Harassment, bullying.

    pirate   Protection   Safety

4. Among the problems that electronic games may cause

    Hidden costs   bullying   all the above

5. ،works to attract attention .... Adding It can arouse different
   feelings.

    lines   Colors   the pictures

Q1:- Put (√) or (×):-

1- < img tag is used src > .to add images to the web page   ( )

2- <P> .tag is used to write in italics   ( )

3- Gaining weight is one of electronic games dangers   ( )

4- There are no dangers while playing electronic games   ( )

5- Fingerprint authentication is a program that scans your

face using Your camera.   ( )

Q2:- Choose the correct answer between brackets

1. Passwords consisting of 8 ،letters and numbers One or more random symbols are...

    The safest   Least safe   Hacked

2. .... Requires multi-factor authentication . At least to identify you

    Three ways   Two ways   Only one way

3. ....will scan your finger Usually the thumb, as a way to confirm your identity

    Face recognition   Activate the lock when lost   Fingerprint authentication

4. .The tag .... is used to write in italics

    <a>   <p>   <i> _ _

5. programming language used to create static standard A..............................
.web pages

    Python   JavaScript   HTML

Model answer (1)

Put (√) or (×):-	Choose the correct answer between brackets
(X)	higher
(X)	pictures
(√)	both (a) & (b)
(√)	all of them
(X)	Two ways

Model answer (2)

Put (√) or (×):-	Choose the correct answer between brackets
(√)	Tag
(X)	<P>
(√)	pirate
(X)	all the above
(√)	the pictures

Model answer (3)

Put (√) or (×):-	Choose the correct answer between brackets
(√)	The safest
(X)	Two ways
(√)	Fingerprint authentication
(X)	<i> _ _
(X)	HTML
